## DISAPPEARS ON WAY TO HAWAII

SAN FRANCISCO, Cal., Aug. 21. —  
The mysterious disappearance of Miss  
Flora Canover, schoolteacher of Palo  
Alto, has led to a search by the po-  
lice. Relatives fear she has met with  
harm.

Miss Canover, who is 30 years old,  
came to San Francisco Monday, in-  
tending to sail on the steamer Lurline  
yesterday for Honolulu. She told her  
relatives that she would stop at the  
Cosmos Hotel.

When the Lurline sailed yesterday  
and she was not aboard, J. S. Canover,  
a brother, and Mrs. L. C. Booth of 42  
Sierra street, a sister, went to the  
Cosmos Hotel. There they were told  
that the young woman had left the  
place suddenly after arriving Monday  
and that it was not known where she  
had gone.

Canover, in reporting the matter to  
Night Captain of Detectives Ryan, said  
that the circumstances of his sister's  
disappearance impressed him so  
strangely that he feared for her safety.

## A FAILURE

Portland, Ore., Nov. 22, 1911.  
John J. Fulton Company.

Gentlemen: You no doubt remem-  
ber my writing you that I had put a  
to Bright's Disease, the heart being  
patient on your Renal Compound after  
he had been given up by five phys-  
icians. Am sorry to say he passed  
away, but not from Bright's Disease.  
He was suffering from heart trouble  
also and his other trouble seemed to  
have weakened his heart so that he  
could not revive. When he started  
the compound he was an awful  
sight. His feet and hands were  
swollen terribly, his kidneys did not  
act and his brain was not clear. Be-  
fore he died (two weeks) this entire-  
ly left him and not a trace of album-  
en could be found \* \* \*

The above was told me by his wife,  
who was feeling very much encour-  
aged as he was getting his old self.  
She went to awaken him one morn-  
ing, but he had passed peacefully  
away during the night. She regretted  
that she had not known of it in time  
to start him on the Renal Compound  
before.

Respectfully,

E. T. HIBBARD,  
9022 Oregon Street.

In our judgment the death was due  
secondary to the obstructed kidney.  
There is nothing in the treatment for  
the heart, and as we have repeatedly  
said, when it is withheld until the  
heart is nearly exhausted in its ef-  
forts to force circulation through the  
choked kidney, failures can be expect-  
ed, but even these cases occasionally  
recover where competent physicians  
aid the Renal Compound by holding  
the heart up to its work with appro-  
priate heart and eliminative treat-  
ment. Fulton's Renal Compound can  
be had at Honolulu Drug Co.

## HERE TO INSPECT MARINE CORPS

A high ranking officer of the Uni-  
ted States Marine Corps, Colonel  
Charles H. Lauchheimer, arrived  
yesterday on the Manchuria, and is  
now engaged in an inspection of the  
marine barracks at Camp Verry. Un-  
til the sailing of the Ventura several  
days hence he will continue the in-  
spection of troops, equipment and  
arms, going through Major Neville's  
command with the proverbial fine-  
tooth comb, and poking into odd cor-  
ners in a way that only inspectors  
have the ingenuity to do.

Although inspecting officers in all  
arms and branches of the service  
make the oyster sound like a very  
garulous bi-valve when it comes to  
commenting on what they see and  
hear, Colonel Lauchheimer yesterday  
afternoon didn't appear like a man  
who had found anything amiss, or  
who had any expectations of so do-  
ing. In fact, Camp Verry is said to  
be one of the model stations of the  
marine corps, discipline and person-  
nel being of a very high standard.

Yesterday morning Colonel Lauch-  
heimer, whose official title is adjutant  
and inspector of the Pacific In-  
spection District, U. S. M. C., went  
directly from the steamer to the bar-  
racks, and commenced his inspec-  
tion. This morning the battalion will  
be turned out in field equipment, and  
he will give the men a look-over  
ready for the road. There will be  
maneuvers or hikes for the marines,  
however, all the work being confined  
to the limits of the post. Later Col-  
onel Lauchheimer will inspect the  
accounts and records of Camp Verry.

#### MOUNTAIN KING MINE.

Word was received from Mountain  
King mine yesterday, making a fur-  
ther call for money. Vice-President  
Hall writes that he is standing off  
stockholders who want to subject the  
mine to judgment so they can buy it.  
He expects to strike paying ore with-  
in thirty days, when all loans from  
stockholders can be repaid. There  
is a movement among local share-  
holders to come through with their  
assessments.

WASHINGTON, D. C., Aug. 19. —  
Joseph E. Algue, director of the Phil-  
ippines weather bureau, now in Wash-  
ington, has invented an instrument,  
called a barocyclometer, which will  
indicate the direction from which a  
cyclone or storm is approaching. The  
barometer will foretell a storm, but  
not its direction. Negotiations for  
manufacturing the invention are un-  
der way at the Navy Department,  
which plans to equip all its ships with  
the apparatus.
